Las Verandas de Amapas PH702, Amapas

A remarkable collection of spacious two bedroom, two bathroom residences offering outstanding lifestyle amenities, oversized terraces with enviable vistas, and inspiring architecture, Las Verandas is designed to be admired by many, and created for a fortunate few to call home. Playa Lifestyle, the renowned developers behind URBAN and URBAN II, are launching their newest view on condo living with this exceptional low-density project for you to change your horizon in Puerto Vallarta. With only 28 units, all with parking, and many with views of the Bay, Las Verandas de Amapas is already a high-demand residential property. The rooftop pool features covered and uncovered terrace areas, an air-conditioned multi-purpose space, co-work space, two BBQ areas, and a heated infinity-edge lap pool all with views of the ocean. All units are equipped with center islands in the kitchens, granite countertops, Parota hardwood doors, ceiling fans and inverter air conditioning in each room, and a laundry center. One of the signature features of this developer is that all units have a full appliance package included, making your life just that much simpler. Being conscientious toward costs, the developer also includes solar panels in his developments to help reduce common area costs, as well as metering all individual unit utilities separately. The building is also pet and rent-friendly.
